

## **The Daily Waste**

*April 15, 2004*

An EPA IG audit found that the EPA awarded a \$700,000 grant without any knowledge of the work the recipient was going to perform.

“The work plan did not have clear objectives, milestones, deliverables, or outcomes. The recipient stated in their work plan: ‘Because of the exploratory nature of these activities and the need to bring together various market players, exact deliverables and schedule will be determined based on what participants tell us they want from our project.’”

*And the Democrats want to raise your taxes to pay for more of this?*
